Hilton Melbourne Florida

Hosted by Dr. Orly Amor & Francis Papineau

◆ THE VISION

Helping Entrepreneurs Turn Their *Conversations* Into a Profitable Business

Our vision for **The Inner Game Experience** is to create a transformational environment where people discover that their greatest potential is not outside of them, it is already within them.

By bringing together **Orly Amor's expertise in mindset mastery, human behavior, communication, influence, and the psychology behind personal and professional success**, with **Francis Papineau's work in unlocking human potential**, we help participants better understand themselves, better understand others, and recognize what may be holding them back from achieving more.

The Inner Game Experience is designed to move people beyond simply learning new information into experiencing real awareness, personal breakthroughs, stronger human connection, and meaningful action.

“When you master what happens within you, you dramatically change what becomes possible around you.” – Dr. Orly Amor

Partner Testimonials

As The INNER GAME Experience grows, we'll proudly showcase more of the words of the brands who partnered with us.

“

"One of the best organized and high-end events I have been to in a while. The organizers made sure I met every person in the room, and we were able to secure a few deals that were a win/win. We've sponsored twice and we will be back for sure."

-Russell A. Founder and CEO of Optimal Wellness

“

"The attendees were motivated decision-makers that were vetted. You can tell by their engagement and level of interest in my presentation. The caliber in the room was exactly what I was looking for, and I know I would not have been able to achieve it on my own in such a short period of time. Thank you, Orly Amor, for being a trailblazer in this economy of scale."

-Dr. Steven G. - HBL (Higher Brain Living)

“

"This event hosted by the Orly Amor's team was a unique, fascinating, and highly rewarding event. It ran smoothly; the team assembled an eclectic and engaging array of executives, and everyone was a willing and eager participant and so many could not wait to share and explore synergies and opportunities. We will happily continue our support of this gathering of like-minded, driven executives."

-David C. Founder and CEO of PANGAEA Enterprises
